

TRANSCEND Webstival 2

IMPLEMENTING TRANSFORMATIONAL ADAPTATION POLICIES

The first part of the Webstival (10-11) will be available on a personalized Zoom link. If you did not receive the invitation, you can [re-register](#). The second part will be held at this [Zoom link](#).

The goal of this event is to continue the common work towards the implementation of transformational adaptation policies in the seven living labs of the project, focusing on potential financial mechanisms. This process has started in the local workshops and has been carried forward during the International Workshop in Venice.

The event will include members of the international network board and key stakeholders from each living lab, representing various sectors, including scientific, regulatory, and social organizations.
